Office Memorandum • UNITED STATES GOVERNMENT

TO : Assistant Director, Research and Reports *029*
THRU : Chief, Geographic Research *023*
FROM : Chief, Cartography Division

DATE: 16 October 1957

SUBJECT: Revised estimate on maps requested for Admiral Layton

1. The following is the current status of the 4 maps you requested for Admiral Layton:

a. Laos - Cambodia - North and South Vietnam (Administrative Divisions). This map has been prepared at a scale of 1:2,500,000 and completed in 117 man-hours. It is expected back from reproduction approximately 25 October.

b. Terrain Map of Laos - map scale 1:2,500,000. The basic compilation material has been completed with approximately 150 man-hours estimated to complete the terrain. Estimated completion date is 30 December 1957.

c. Terrain Map of Southeast Asia - map scale 1:6,000,000. Due to the pressure of commitments in the Terrain Section, no work has been done to present. Estimated completion date is approximately 15 February 1958.

d. Terrain Map of Indonesia - map scale 1:8,000,000. This map is approximately 40% completed and will require an additional 100 man-hours. Anticipate 30 November as the earliest possible completion date.

2. Inasmuch as the terrain is requested on 3 of the 4 maps, a critical scheduling problem exists. Each of these must be done at the expense of long-range committed NIS Chapter I requirements. We are currently applying regular overtime in the Terrain Section to meet the earliest possible completion dates.
